20. (currently amended): A grip identifier for a traditional pint beverage container comprising:

flexible insulating material wherein said grip identifier is contoured to wrap around and conform to the shape of said beverage container, and a fastener for an interchangeable patch, wherein said fastener is disposed upon said flexible insulating material; and said interchangeable patch with an attached fastener.

21. (original): The grip identifier of claim 20 wherein said flexible insulating material comprises neoprene.

22. (original): The grip identifier of claim 20 wherein the fastener is the loop portion of the hook and loop type fastener.

23. (original): The grip identifier of claim 20 wherein said flexible material has a front side, back side, left end, and right end and further comprising:

a first fastener device secured to said left end of said front side, and a second fastener device secured to said back side of said right end.

24. (original): The grip identifier of claim 23 wherein said first fastener and said second fastener are hook and loop type fasteners.

25. (original): The grip identifier of claim 20 further comprising a loop adhered to said grip identifier.

26. (original): The grip identifier of claim 20 further comprising between 1 and 4 vertical seams.

27. (original): The grip identifier of claim 26 further comprising an elastic strip extending along said seam(s).
